COVID-19 Update

If we take a look at the events of the last couple of weeks, particularly for those living in Victoria, we are reminded that COVID-19 is still spreading. You may have read that NSW has temporarily shut its border with Victoria to contain the spread of COVID-19 and to protect the health and jobs of NSW citizens.

✓ WHAT WE ARE DOING NOW

- All of Mai-Wel's service areas have developed and implemented their individual COVIDsafe plans to make sure our staff and participants who have started attending services again, are safe.
- Further signage has been placed along the walls and floors of our offices, reminding people of the social distancing and hygiene rules that are in place.
- All Mai-Wel sites have been undertaking temperature checks for every staff member, participant and visitor before they enter the site.
- Daily wellness checks have been updated to include questions relating to those who may have visited, or live with someone who has visited Victoria recently.
- Training videos have been developed and will be rolled out across the organisation over the coming weeks.

If there are any questions or concerns you have with Mai-Wel's response to COVID-19, please make contact with us by calling the below phone number.
